

Fire Warden

1 Day (half-day on clients site)

Fire is an insidious threat to life and business. Statistics would suggest that 75% of businesses suffering a major fire do not recover without a sound business continuity plan. It is better to take measures to prevent a fire than to suffer the consequences. This course will raise the awareness of fire hazards and examine fire prevention techniques, fire precautions and procedures.

Objectives

On completion of the course delegates will:

- Understand the chemistry of fire
- Recognise the hazard posed by fire
- Appreciate the need for good fire prevention
- Experience the use of appliances in 'real' fire situations*
