

IOSH Working Safely

1 Day

Designed for

All levels of staff in all sectors of industry and commerce requiring a basic knowledge and understanding of health and safety legislation and current best practice.

Aims

This course aims to instruct and inform staff in Working Safely issues to ensure that their actions contribute to health and safety in the workplace and that individual responsibilities are clearly understood. The course is ideal for use as part of an induction program but can also form part of ongoing training.

Objectives

On completion of the course delegates will:

- understand the importance of health and safety rules and procedures
- be able to confidently contribute to improving health and safety
- recognise the need to work in a safe and healthy manner
- be able to identify hazards in the workplace and report potential health and safety risks

Course Content

Introduction

Factors affecting health and safety

Types and causes of work-related ill health

The benefits of good standards versus the cost of failure

Legal requirements

Accident Prevention

Workplace Safety

An outline of workplace hazards associated with:

- Fire
- Display Screen Equipment
