

Construction Design & Management Regulations (CDM)

up to 1 Day

The new, simplified CDM Regulations bring together the existing CDM 1994 and the Construction (Health Safety and Welfare) (CHSW) Regulations 1996 into a single regulatory package. The new CDM regulations offer an opportunity for a step change in health and safety performance and will be used to re-emphasise the health, safety and broader business benefits of a well-managed and co-ordinated approach to the management of health and safety in construction. From 2015 the course will also include the changes to the regulations (CDM 2015).

Objectives

This course aims to give delegates a comprehensive overview of the new regulations. It can be utilised as either a refresher course or an overview for delegates without previous CDM experience.

Introduction

- ❗ Course Content and Objectives
- ❗ Information Sources
- ❗ Reasons for CDM Regulations
- ❗ Costs and Benefits
- ❗ Construction Industry Safety Performance
- ❗ CDM Prosecutions
- ❗ Links with other Legislation

CDM 2015 Regulations, Approved Code of Practice and Guidance

- ❗ Projects subject to CDM
- ❗ Duties of Client, Client's Agent, Designer, Principle Designer, Principal Contractor and Contractor
- ❗ Appointments and Assessments
- ❗ Notification to HSE
- ❗ Risk Assessments
- ❗ Health and Safety Plans
- ❗ Health and Safety File
- ❗ Client and Contractor Responsibilities
- ❗ Relevance of Contracts

Construction Risk Assessments and Method Statements

- ❗ Relevance to Client
- ❗ Principles and Assessment
