

CCNSG Safety Passport Courses

2 Days

National Course

The CCNSG National Course is a two day course for basic site safety. The CCNSG National Course is valid for three years from the date of the course.

Many Companies insist on Personnel holding this qualification before allowing them access to a site or premises.

Designed for

All employees within the Construction & Engineering industries and Sub-contractor personnel working within the installation and maintenance sectors.

CCNSG Training Assessment

Two passport sized photographs and a national insurance number are required by each delegate on the first day of the course.

Each module is assessed through multiple choice question papers with the examination pass mark set at 80% for each paper.

Delegates are awarded the CCNSG Safety Passport upon successful completion of the course.

CCNSG Renewal Course

1 day

The CCNSG Renewal Course is designed as a one day refresher course for those who have already passed the CCNSG National Course. This has to be taken within three months of the Safety passport expiry date (3 years). If it is not taken within the specified time then the two day CCNSG National Course will have to be retaken.
