

Environmental Awareness

1/2 Day

This course is aimed at providing basic awareness to all employees to help enable them to identify and comprehend the key concepts involved in environmental awareness. The course looks at how the delegate's actions both in the workplace and at home can impact on the environment.

This course is an excellent introduction to environmental awareness and can be tailored to suit the individual company or industry sector requirements. It also assists those companies with an Environmental Management Programme to engage employees and helps to raise environmental awareness and consideration.

Designed for

This course is to raise awareness of environmental issues and is suitable for staff at all levels and sections of an organisation.

Objectives

At the end of the session participants will be able to:

- ❗ identify environmental issues relevant to their work and workplace
- ❗ understand simple measures that can be implemented to reduce the environmental effects of organisations
- ❗ understand the business and community benefits of environmental management
- ❗ recognise the principles and importance of environmental legislation and the authorities responsible for its enforcement
